# FOOD FOR THE NEEDY

Aashaa Bora Foundation was conducted a programme “**Food for the Needy**” on 19<sup>th</sup> July, 2015 at Batakuchi, Digaru. The main motive of this programme was to help the needy people by giving them the rice that would be cultivated in the paddy field. Twelve bighas of land was used for the cultivation of paddy crops to help the needy people of Batakuchi.

On 15<sup>th</sup> November, 2015 the paddy was reaped and harvested for distribution among the needy people of the village. There are so many poor people in the village who don't have their own land and therefore are not in a position to cultivate their own paddy. Aashaa Bora Foundation took the step to help such people with their food and so took the above initiative. President of Aashaa Bora Foundation, Aashaa Bora herself went to the field and participated with the farmers in the process of cutting and gathering the paddy. The paddy was given to all the people in the village who could not cultivate and have their own rice.

The people who were given the paddy reaped the benefits of the initiative taken by Aashaa Bora Foundation. Food is the basic necessity of human beings and when one cannot have it we can imagine very well how hard it is for him / her to carry on with his/ her life. Realizing the gravity of this problem Aashaa Bora, president of Aashaa Bora Foundation decided on donating the cultivated paddy to the needy people of the village.
