A Short case study

Bipan Kashyap is a 10 years old boy .His IQ level is 52, so that he acts like a 5 years old boy.He lives with his parents, his father is a business man and mother is a teacher. He goes to a normal school and studying in class II. But he is not taught by the teacher in the class room but in the staff room. His treatment is going on in the Christian Medical College, Vellore under Dr.Sangita.After undergoing treatment a considerable amount of improvement has been noticed in his condition .He is interested in music and seeing his enthusiasm Dr.Aashaa Bora, president of Aashaa Bora Foundation donated a pair of Tabla on 14th September 2015 so that he can enhance his skills in this particular instrument and make a career in music in future. Aashaa Bora Foundation wishes for an independent future of Bipan Kashyap so that he can lead his life without being dependent on anyone else. May he carve a niche for himself and excel in the field of tabla playing.
